Online Password Reset: Security Questions / Answers

The online password reset allows existing Jigsaw users the ability to add security questions to their profile so that they can reset their password online.

Once you have logged into your Jigsaw account, edit your profile, and then choose the option to "Use Security Questions / Answer to set your password online".

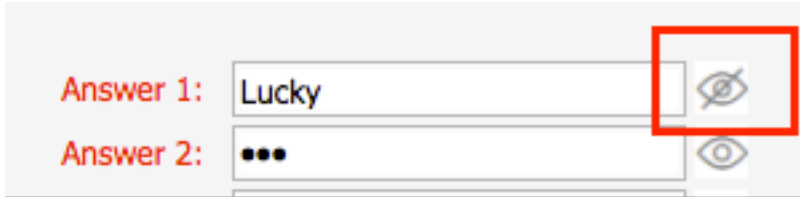

Select the question to use.

The screenshot shows a user interface for selecting security questions. On the left, there are three labels: "Security Question 1:", "Security Question 2:", and "Security Question 3:". To the right of these labels is a list of questions. The first question, "What is the name of your favorite pet?", is highlighted in yellow and has a dropdown arrow next to it. Below it, the same question "What is the name of your favorite pet?" is highlighted in blue. Other questions in the list include "Who is your favorite actor, musician, or artist?", "In what city were you born?", "What high school did you attend?", "What is the name of your first school?", "What is your favorite movie?", and "What is your mother's maiden name?". To the right of the list, there is a label "Answer 1:" followed by a small icon of three dots.

Then enter your answer. By default all answers are hidden.

To show the answers click the "eye" icon.

Answer 1: Lucky

Answer 2: ...

Once three questions and answers have been selected and answered, you can use the online password reset option should you need to reset your password in the future.
